About Slido

Slido is an easy to use Q&A and polling platform for meetings and events. It allows meeting and event organizers to crowdsource top questions to drive meaningful conversations, engage participants with live polls and capture valuable event data.

Slido has a team of more than 150 people, with offices in London, New York, San Francisco, Sydney and Bratislava.

slido

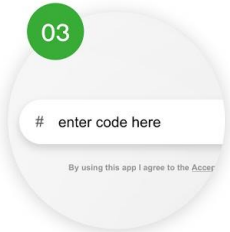
3 easy steps for your audience to join in

Open browser

Go to slido.com



Enter event code

slido

01

Audience questions

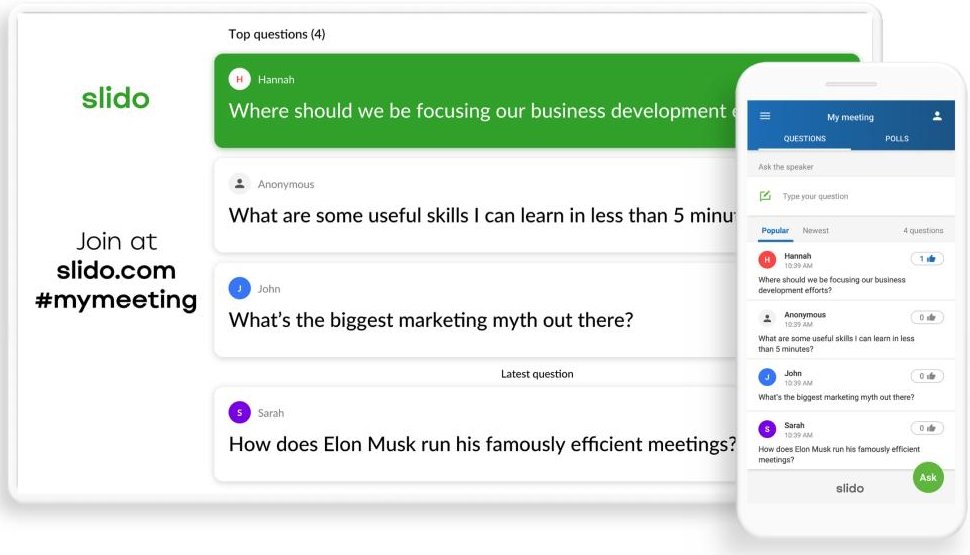
Crowdsource the best questions from your audience

Maximize the effectiveness of your Q&A time

Let your participants ask questions from any device and vote for the ones they like the most.

Display the top questions to your audience

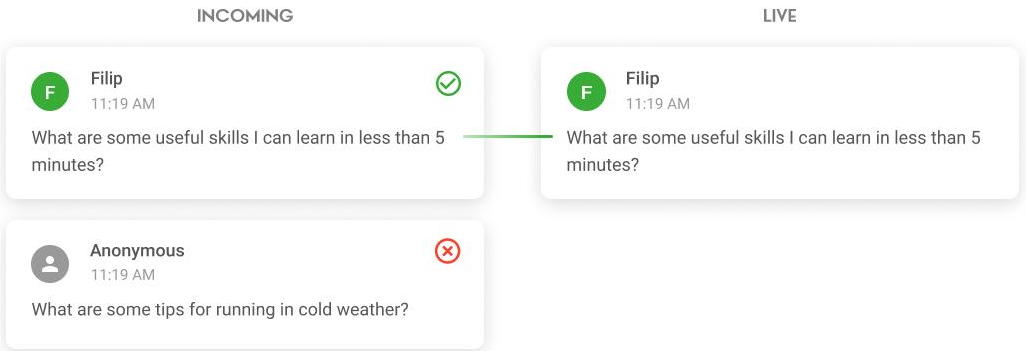
Boost the audience engagement by displaying the top questions live during the Q&A.



slido

Have control over what questions are asked

Turn on moderation and easily filter any inappropriate questions before they go live.



slido

02

Live polls & Ideas

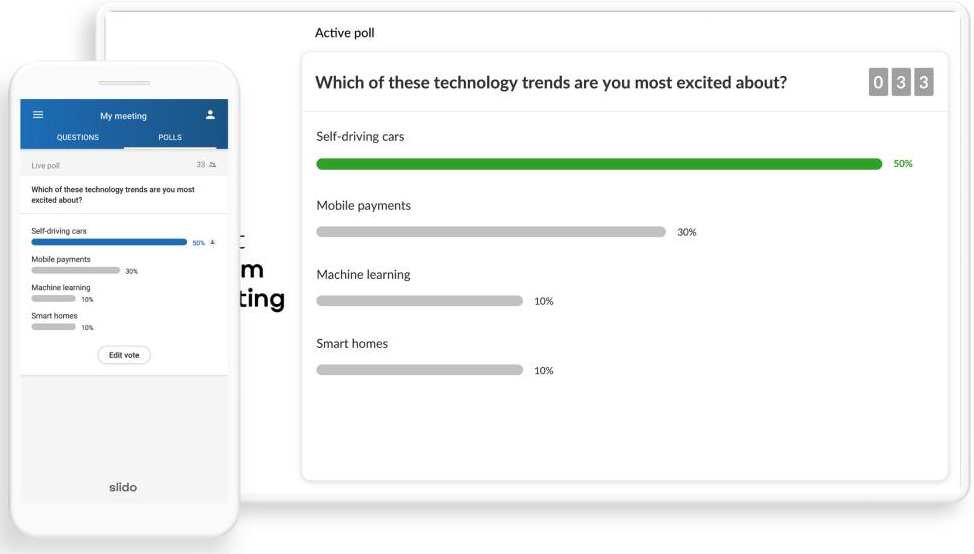
Engage your audience with live polls

Collect real-time insights about your audience

Ask your participants their opinion and let them vote instantly from any device.

Share the results live with your audience

Find out who they are or what they think and display the results live on screen.



slido

Choose the poll type that most suits your needs

Run a quick multiple choice poll or capture the insights with a stunning word cloud poll.

Create a survey with several poll questions to get more detailed feedback.

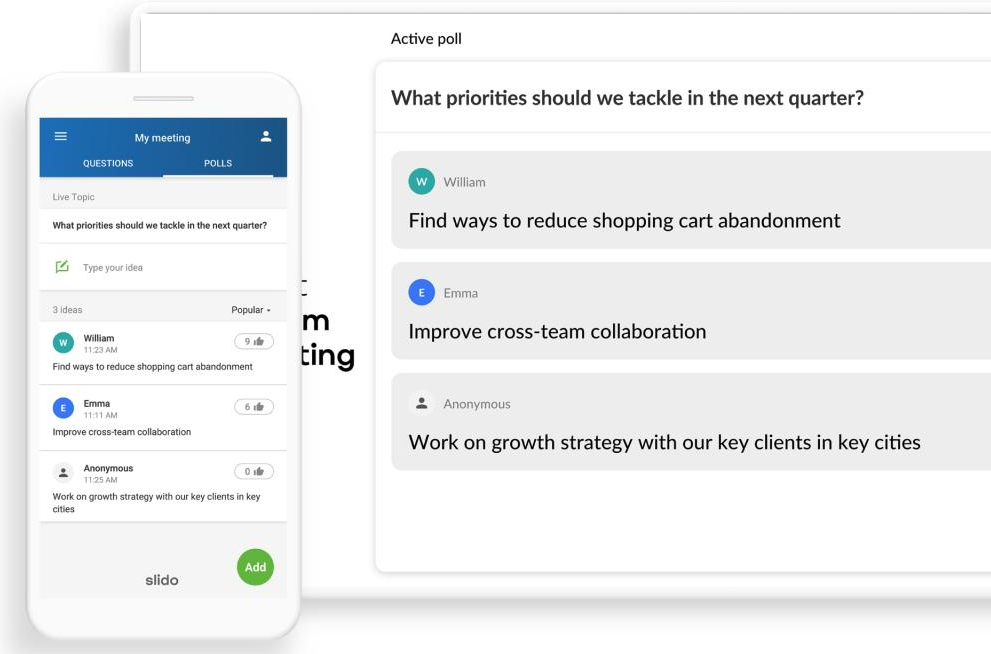
slido

Run effective brainstorming sessions

Capture the best ideas from your participants, whether you're deciding on team projects or summarizing the key learnings from your workshop.



slido

03

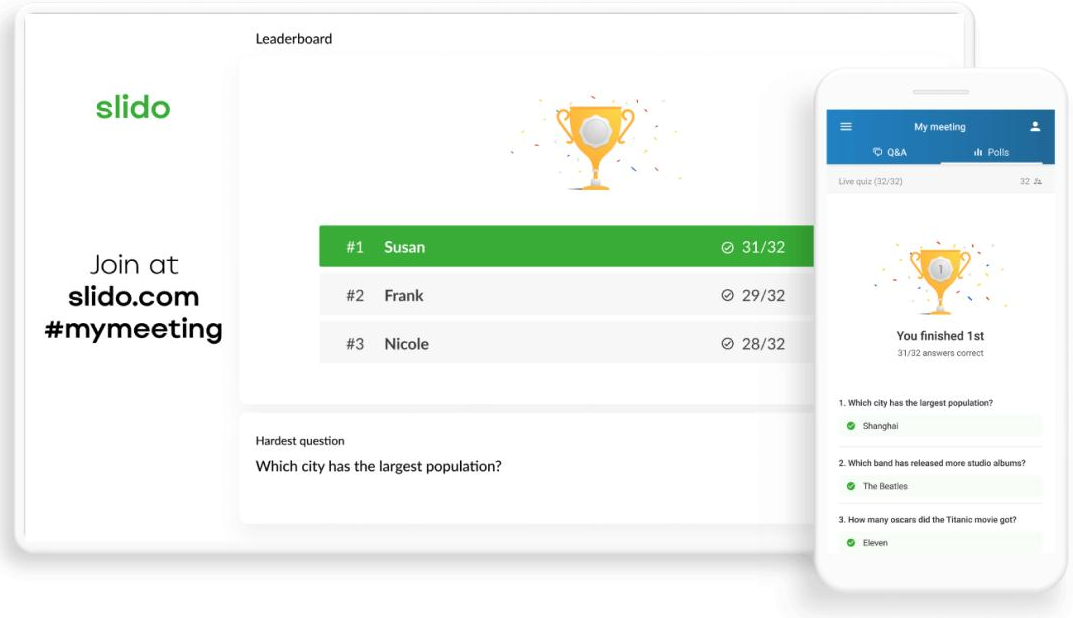
Quizzes

Create a fun learning experience

Run a quiz with questions that fit the topic of your presentation or training.

Add options and mark the correct answers.

At the end, display the leaderboard with the top players and give your quiz a big finish!



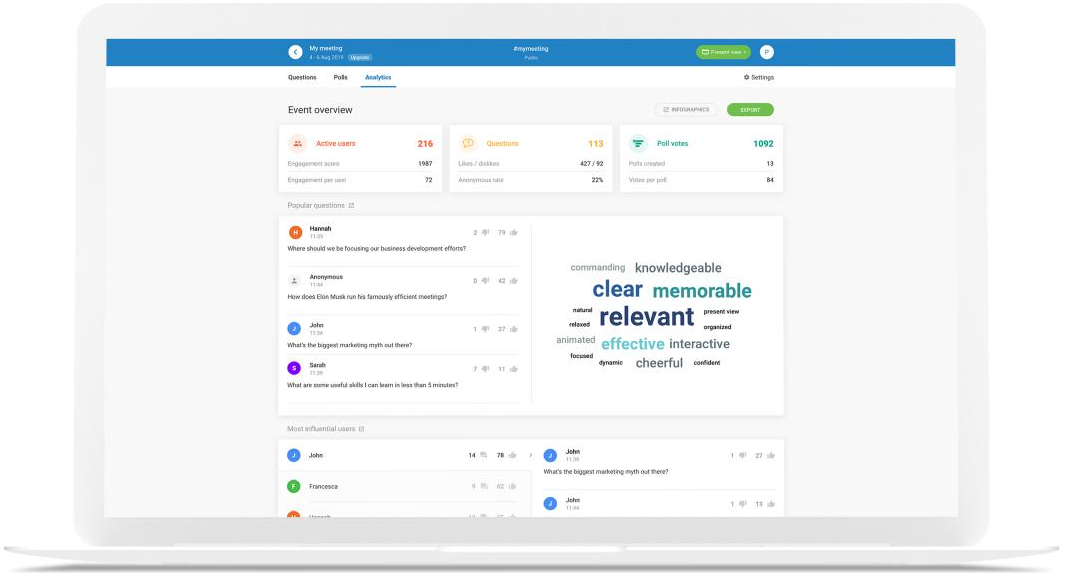
slido

04

Event analytics

Gain valuable insights with event analytics

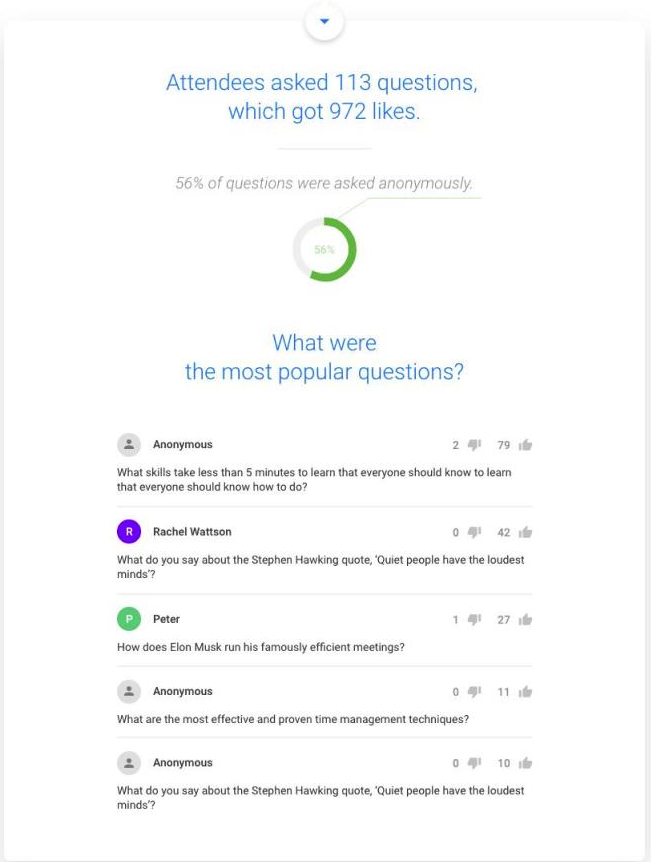
Meet your most influential participants and discover which topics resonated the most with your audience.



slido

Share the insights in a beautiful infographic

Generate an infographic from your event data and share it with your colleagues or participants.



slido

04

Integrations
